

I have read that the Sinclair group of TV stations is planning to air a very partisan anti-Kerry piece in the near future. This would be a bad misuse of public airwaves, at least without giving equal time to a pro-Kerry piece as well. The American people trust the FCC to regulate our airwaves, and make sure that the companies who use them (for FREE) do not abuse them by running cheesy smear programs to serve their own political interests. If they do end up running this program, "without Honor", I strongly urge you NOT to renew their licenses. Thank you. -Paul welcomer
